CINEMA 4D DEMO - ALL VERSIONS

This archive contains a demo of all Cinema 4D versions (Prime, Broadcast, Visualize and Studio) and BodyPaint 3D.

This demo includes

- almost all of the full functionality* of the commercial versions
- no time limit
- the option of switching between Prime, Broadcast, Visualize and Studio whenever you want

Activate the demo and use all saving features for 42 days

After you start the Cinema 4D demo you can optionally activate it and use the following features for 42 days:

- Save and export your projects
- Create and save textures in 3D painting mode
- Save rendered images and animations
- Save compositing files (incl. Multi-Pass renderings)

Important note: Activate the demo version only from the computer on which you intend to use the Cinema 4D demo version for the duration of the trial period. The activation code will only work on the computer from which the demo version has been activated. An activation is non-transferrable.

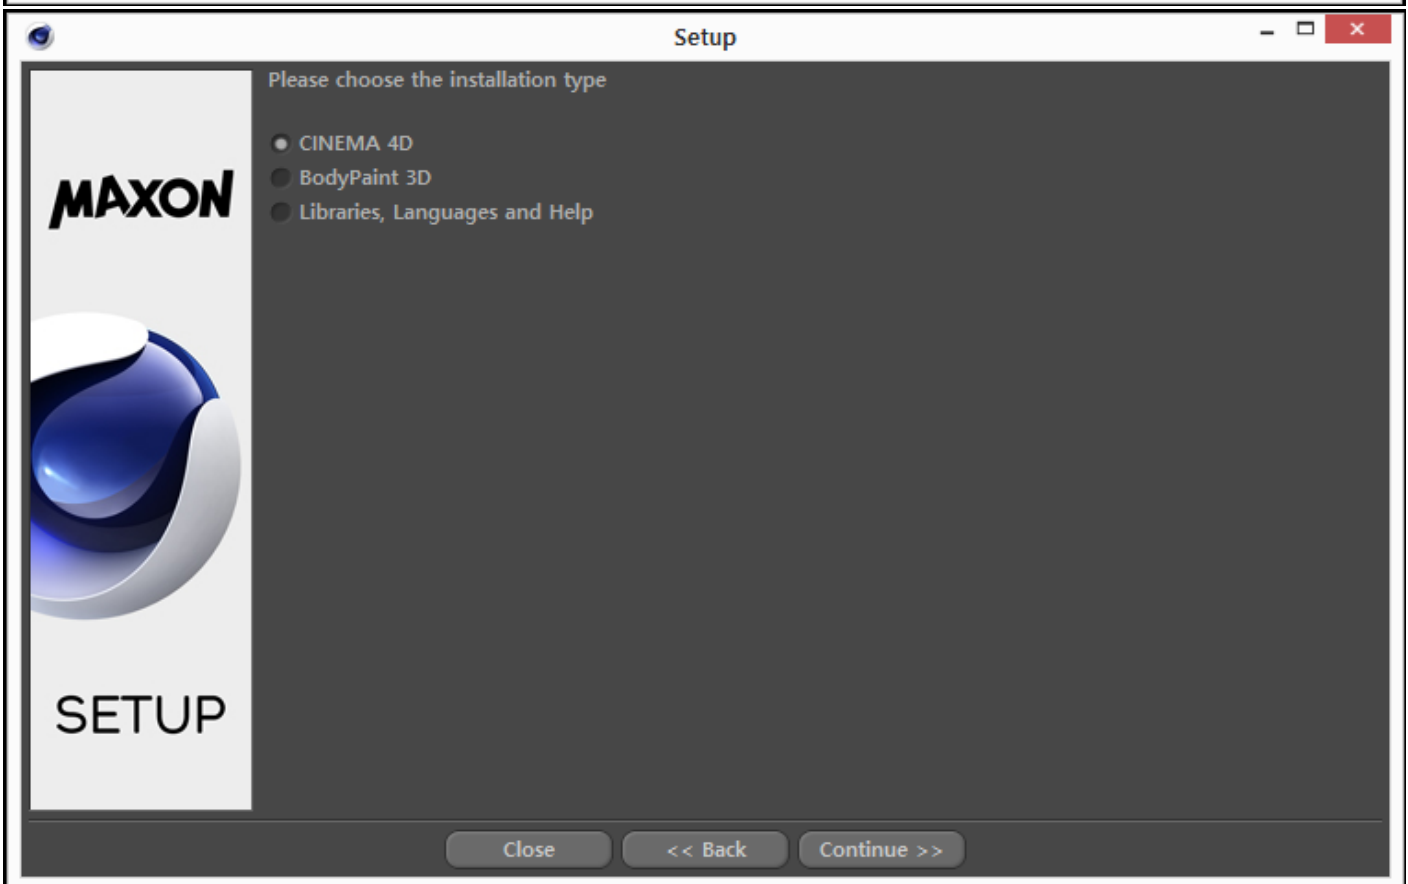

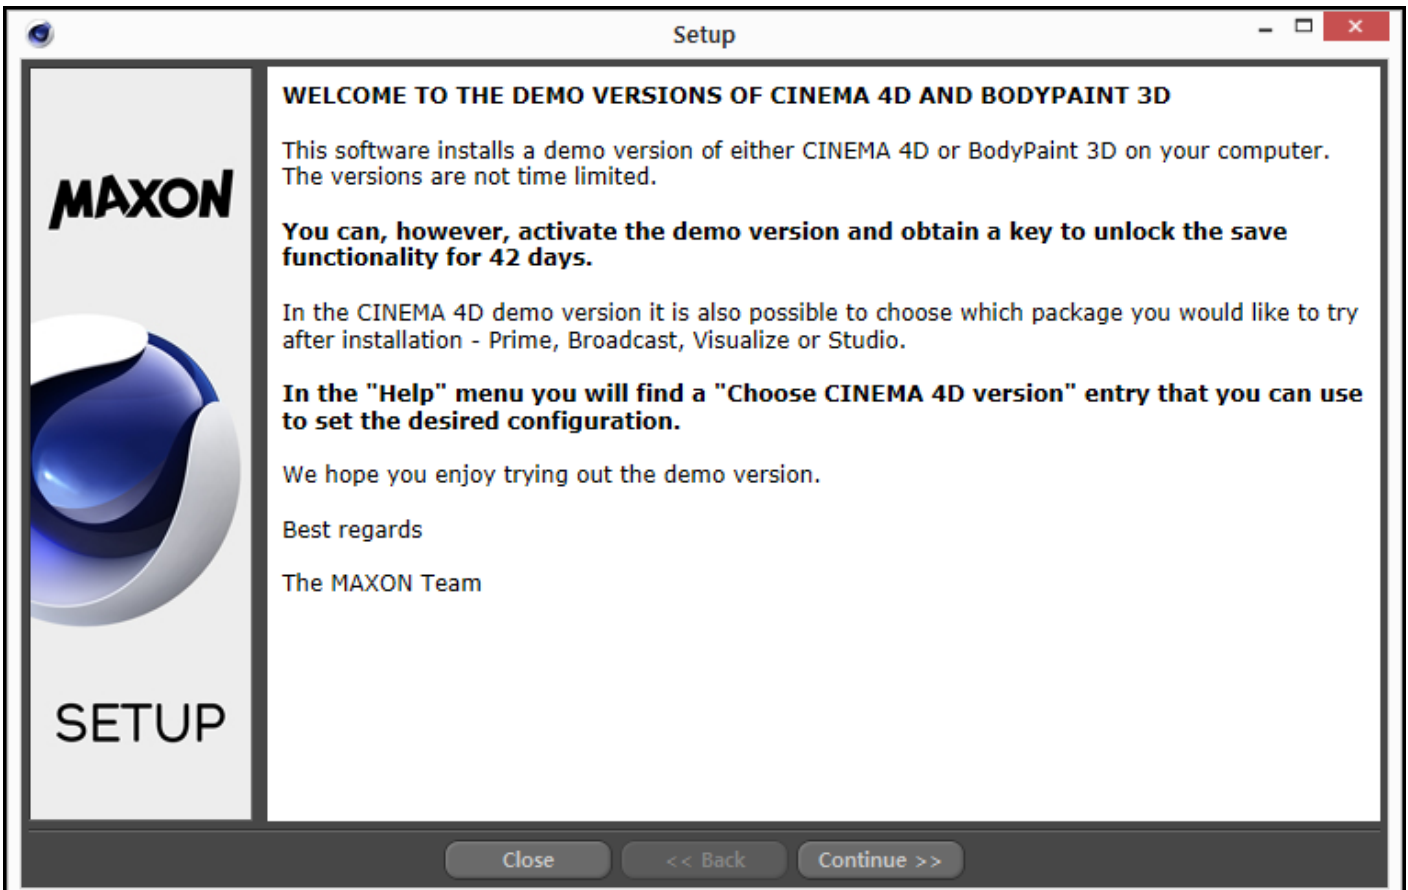

→ [Download](#) (Windows/Mac OS X - approx. 3 GB)

***Limitations of the demo version:**

- Maximum rendering resolution of 800 x 600 pixels
- No network rendering
- Limited number of assets in demo libraries (libraries contain hundreds of objects in the full commercial version)
- The demo version is not upgradeable to a full commercial version
- The demo version is intended for evaluation purposes only. Any commercial use of the demo version, e.g. for training purposes, is not allowed.

Activation of your Cinema 4D demo version

You can activate your Cinema 4D demo version's save functionality for a period of 42 days by activating it online.

Please note: Activate the demo version only from the machine on which you intend to use Cinema 4D during the trial period. The activation code will only work on the computer from which the demo version was activated. An activation cannot be transferred.

The 42-day activation period starts when you click the "Register" button at the end of this form.

- Please fill in the indicated field in the form below and click on "Register"
- You will receive an email from MAXON that contains the activation code.
- Click on the "Enter Activation Code" button at the bottom of this window and enter the activation code you received via email.

You can now enjoy Cinema 4D for 42 days with all save functionality enabled. After this period you can still run the program albeit without the save-options.
